ABOUT ME

From the first time I produced "Hello World" in the console of my first application, I knew I was hooked into software development world. But software development has never been "just a job or duty" for me, it's offered an engaging challenge to continually learn and improve my skills in creating hight-quality software. What started with a simple "Hello World" has become a full-fledged passion that only gets more exciting as the years go by.

NOTABLE SKILLS

JavaScript (ES 6+) TypeScript

React Redux Webpack / Gulp

Material UI   Bootstrap5

Tailwind CSS   Git / GitHub
styled-components   Nest.JS

Express Socket.io

WORK EXPERIENCE

FRONT EN ENGINEER
HTTPS://BIBLE.TEXTTREE.ORG/

I worked in a team of 6 developers to create a software that empower bible translators to translate more easily and accurately the bible in different languages.
I was mainly focused on the front development and my responsibilities were:

– To create React components that fetch data from different APIs.
– To fix bug in existing React components.
– To add functionalities to existing React components.
– To bundle different React components in order to get a finished and ready software.
The finished product: https://bible.texttree.org/

Tools used:
– JavaScript
– React
– Material UI
– Styled Component
– React-Hooks
– Node
– Docker

FONT END ENGINEER
HTTPS://WWW.OLIVER.AGENCY/

At OLIVER AGENCY, I worked in a team of 9 colleagues with different backgrounds (Designer, Copywriter , SEO manager ....)
I mostly worked with HTML5/CSS3 and native JavaScript, creating beautiful things like HTML5-banner, HTML5-Email, Promo-landing pages and also worked on websites like:
– https://prostokvashino.ru/
– https://danissimo-club.ru/
